

Working with Quipsound

Many of our accounts are global household names who we have been serving on average for more than 10+ years.

They value our VAT expertise and customer service. They also value our discretion, which is why you won't see our website covered in client testimonials. To find out who we work with and why they stay with us, give us a call.

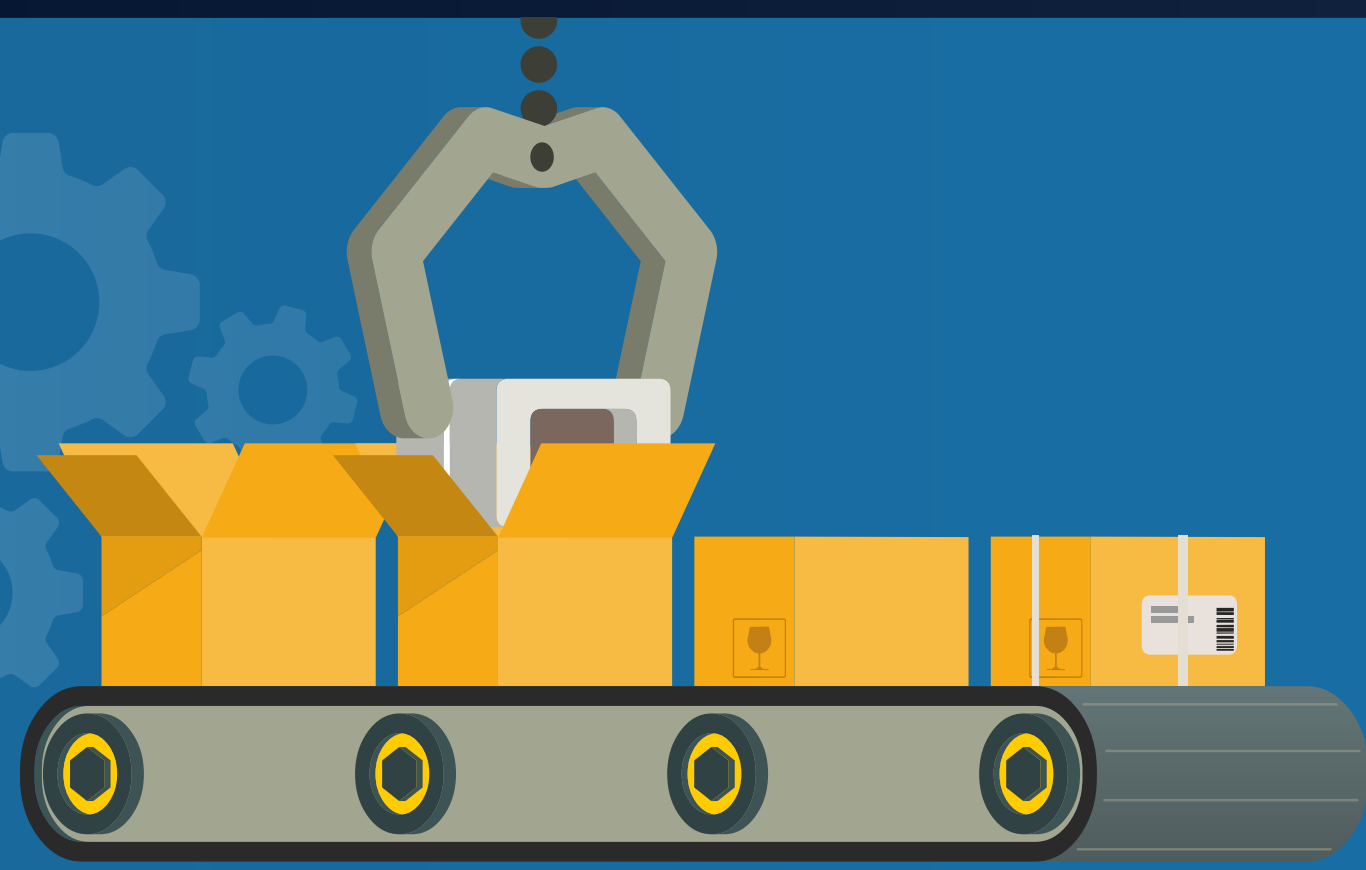

Automotive

We work with some of the world's best-known automotive brands providing end-to-end VAT recovery service and creating the complex supply chain packs required by Tax Authorities.

Pharmaceutical

We support two of the world's largest global pharmaceutical companies. We help with identifying and recovering the maximum T&E spend plus other industry specific expenses such as those incurred in clinical trials.

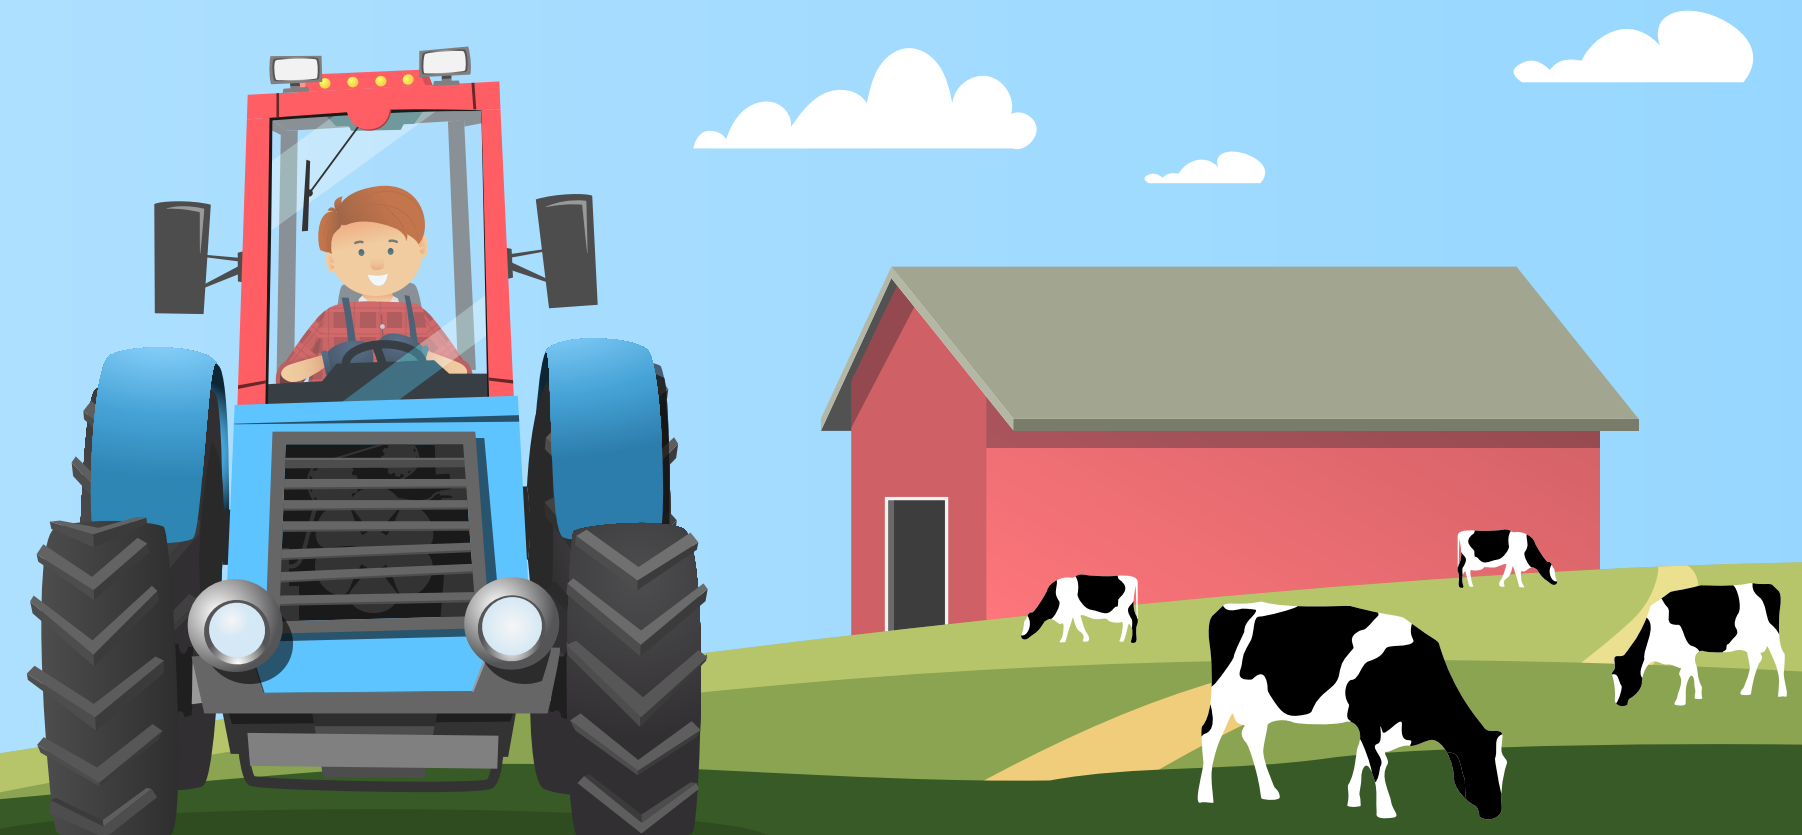

Manufacturing

We work with the largest industrial manufacturing company in Europe to ensure all VAT is identified and recovered across a variety of platforms both electronic and paper based.

Agriculture

Our client is one of the world's top producers and distributors of agricultural products, identifying VAT across a variety of markets and expense types and ensuring maximised reclaim.

Due to the sensitivity of working with VAT, we know how important confidentiality is. For that reason, many of our clients prefer that we don't publish their details online. **However, we're happy to offer verbal references for prospective clients!**
